

## GEN. BYNG'S ARMY BANGS HUNS EARLY TODAY

### ALLIES FURNISH GUNS AND SHELLS

Provide Ample Military Supplies for Czechs and Loyal Russians.

### PLANS PROVE SUCCESS

Assistance to Enemies of Bolshevik Regime in Siberia Will Reach Them in Time to Thwart Teuton Efforts.

Washington, Aug. 21.— Assistance being sent to the Czech-Slovaks in the Balkan region of Siberia will reach them in time to thwart the efforts of the Austro-German prisoners and the Bolsheviks against whom they are fighting, according to information reaching Washington.

It was learned that the Allies are sending large quantities of arms and ammunition to the Czechs and that heavy artillery is included in the supplies. It is not permitted, for military reasons, to disclose from what source these supplies are being sent but a high official in the State department said this was a part of the bigger program now being worked out in a practical way to furnish the necessary aid.

#### Rapid Progress Is Made.

The program to re-establish the Eastern front with the aid of the hundreds of thousands of loyal Russians is progressing far more rapidly than was expected at first. The Trans-Siberian railway will play an important part in the re-establishment of this line.

That Germany appreciates the importance of the part that this line is to play is shown in a dispatch printed in an Essen newspaper and reported from Amsterdam to the effect that Soviet troops had blown up the Baikal tunnel. It was pointed out by officials familiar with this railroad that there are no less than 33 Baikal tunnels, all of them hewn out of solid rock, so that any attempts to blow up one of them would simply delay transportation for a short time until debris could be cleared away.

Poland will be ready to join in the re-establishment of the Eastern battle-front, when the influence of the Allied penetration becomes strong enough for her to throw off the Austro-German yoke, authoritative diplomatic advices indicate.

### SEND WOUNDED INTO BATTLE

Germans, Short of Men, Use Those Not Yet Fit.

London, Aug. 21.—It is believed in Cologne that the Germans are weaker on the western front than even the Allies claim, says the Daily Mail correspondent at The Hague. He does not touch for other sections of Germany, but gives this resume of conditions in the Cologne district:

All leaves from the front have been reduced one-half. Men are sent to the front from the hospitals before they are completely fit. Letters from the front have been discontinued. Deserters are being sent to the front from punishment camps. Wounded horses are hurried west with bandages still in place.

### CAPTURE SIXTY PRUSSIAN

Yankee Soldiers Say Enemy Was Ready to Surrender.

With the American Army on the Vesle front, Aug. 21.—Sixty Prussians have been taken prisoner by the Americans near Fismette, north of Fismes without either side firing a shot. The Prussians were machine gunners and all that remained of a company which had been in line less than a month.

The Americans who took the prisoners do not claim any credit for the capture, declaring the Prussians virtually deserted their posts.

### 1,400,000 Men Now in France

Washington, Aug. 21.—Thirty-two completely organized American divisions or around one million four hundred thousand men are now in France Chief of Staff March announced. To place them there it is necessary to scour the world for ships, and to maintain them there it will require much more shipping. He said the American fleet corporation is doing splendidly.

#### MAJ. GEN. BUNDY

Named to command the Fifth corps in France.

Maj. Gen. Bundy is the man who sent his French superior on the Marne this famous message: "The American flag has been forced to retire. This is unendurable, and none of our soldiers would understand their not being asked to do what is necessary to reestablish a situation which is humiliating to us and unacceptable to our country's honor. We are going to counter attack." Then he struck and drove the Germans over the Marne.

### MAY SOON JOIN ALLIES

People of Poland Are Chafing Under German Rule.

Streets of Warsaw Are Declared to Be Lined With Alert Teuton Guards.

Washington, Aug. 21.—Authoritative diplomatic advices indicate that Poland will be ready to join in the re-establishment of the eastern battle front when the influence of the Allied penetration becomes strong enough for her to throw off the Austro-German yoke.

Dispatches from Zurich report a growing unrest at Warsaw, Cracow and throughout Russian Poland. The Zurich Zeitung states that the streets of the Polish capital are lined with alert German guards.

The Germans are declared to have discovered the headquarters of a secret army at Lomaz and Plozk and to have made wholesale arrests.

### DESTROYS AUSTRIAN VESSEL

Italian Diver Torpedoes Ship and Returns to Its Base.

Rome, Aug. 21.—Submarine F-7 entered the Gulf of Quarnero in the upper Adriatic and torpedoed and sank a large Austrian steamer, returning to its base unharmed, the admiralty announced.

The government of Quarnero is east of the Polish naval base, between the Istrian and Croatian coasts.

### ATTACK SUBMARINE BASES

American Airmen Credited With Successful Raid.

London, Aug. 21.—The American navy's air campaign against German submarine bases in Flanders began Aug. 15 with the bombing of Ostend. While details are lacking, it is said the operations generally were successful and that the Americans are particularly good at night bombing.

#### Strike in New Jersey Settled.

Newark, N. J., Aug. 21.—Settlement of the machinists' strike in Northern New Jersey, involving more than 50,000 men, was effected by Maj. B. H. Gitchell, mediator for the War and Navy departments, who has decided that the wage dispute shall be adjusted on the basis of the hourly rate now in force in the Frankford arsenal and the New York and Philadelphia navy yards. The finding is satisfactory, it is said, to both the manufacturers and their employees.

## BRITISH STRIKE ON 10-MILE FRONT AT ARRAS DURING A HEAVY FOG

### Attack Was A Complete Surprise---Center Between Arras and Albert Pushed Ahead 3 Miles

### New Revenue Bill of America Authorizes Billion Dollar Drive on Income and Excess Profits Slackers ---New Provisions

### Vesle Positions Threatened by French Advance

BY FRED S. FERGUSON, (United Press Staff Correspondent.)

With Americans Afield, Aug. 21.—The French advance between the Oise and the Aisne is rendering the German lines on the Vesle more difficult to hold. As the Germans retreat east and south of Noyon, their positions east of Soissons are becoming more pinched, with every possibility of their being forced to release their positions before the Americans between the Vesle and the Aisne.

### British Attacked on Wide Front

(By United Press)

London, Aug. 21.—General Haig reports the British attacked on a wide front north of the Ancre last night and satisfactory progress is being made. They also progressed last night and this morning on widely spread sectors of the Flanders front.

### American Red Cross at Vladivostok

(By United Press)

London, Aug. 1.—American Red Cross units have arrived at Vladivostok from Tokyo, bringing seventy thousand pounds of hospital supplies and provisions.

### British Attack on Ten Mile Front

BY LOWELL MELLETT, (United Press Staff Correspondent.)

With British Afield, Aug. 21.—General Byng's army struck the Germans on a ten mile front between Arras and Albert during a heavy fog this morning. The attack began shortly after 5 A. M. and by 9 A. M. the British had captured Moyenville, Courcelles, Bucquoy, Helainzeville, Achietlepit and Bucourt Surrance.

London, Aug. 21 (1:15 P. M.)—The British in a new attack between Arras and Albert reported they had progressed three miles in the center reaching Achietle Grand, three miles northwest of Baupenne. At other points in the line, Byng's men have gone ahead two miles. Information concerning the attack is somewhat indefinite. The attack was a complete surprise.

### Every Person Must Make Income Tax Return

Washington, Aug. 21.—The new revenue bill will authorize a billion dollar drive on income and excess profits slackers. To prevent further tax dodging Secretary of the Treasury McAdoo asked congress for authority to force every person in the country to make income tax returns whether or not liable to the tax.

### French Continue Advance-Capturing Several Villages

BY WEBB MILLER, (Staff Correspondent, United Press)

Paris, Aug. 21 (10 A. M.)—General Mangin is continuing his advance between the Aisne and the Oise, extending the fighting front, which now extends from the Oise to Soissons over an irregular line twenty-five miles long. The Germans are being reinforced. Mangin took several villages and several score of strong points.

General Ludendorff is reported to have wired urgent orders to Berlin to train the class of 1920. It either means the Germans are planning a tremendous drive this fall or the man power crisis is more serious than has been indicated.

### Spain Will Replace Sunk Ships With Interned Ships

(By United Press)

Madrid, Aug. 21.—The ministry of the interior announced that Spain had sent a note to Germany declaring that if there was any further submarine sinkings of Spanish vessels, Spain will temporarily replace them with German tonnage interned in Spanish harbors. A few days ago he denied sending such a note. Today he denied that Germany had broken off relations with Spain.

## HIT FOE FROM OISE TO AISNE

#### GEN. PAU

Named head of French mission to Australia.

General Paul Gerald Pau, through the French embassy at Washington, has been appointed head of the French mission to Australia, in succession to the late Albert Metin, who died in San Francisco last week. M. Andre Siegfried, general secretary of the mission under M. Metin, was advanced to the post of assistant to General Pau. General Pau, the one-armed French hero, led the French advance into German Alsace in 1914.

### French Progressing Between Oise-Aisne

(By United Press)

Paris, Aug. 21 (Official)—The French continue to progress on the whole front between the Oise and the Aisne last night capturing Carlepont and Cuts. The Germans failed to counter attack. The French advanced west of Lassigny. A German raid in the Champagne has been repulsed.

BY JOHN DeGRANDT, (United Press Staff Correspondent.)

Paris, Aug. 21 (3:50 P. M.)—The French outflanking Ourcamp forest have reached a point near Pointoise about two miles southeast of Noyon. Pressure has been methodically exerted toward Lassigny and Noyon. The latter is now threatened more from the southeast than from the southwest. Cameline seven miles southwest of Noyon and Blerincourt a mile southeast of Cameline has been passed.

### German Resistance Becoming Weaker

(By United Press)

With the British Afield, Aug. 21.—Whether their fighting spirit is waning or the German commanders are saving man power is unknown, but the act is the British are finding the Germans giving way with unexpected readiness.

### Heavy Firing Heard Off Atlantic Port

(By United Press)

Atlantic Port, Aug. 21.—Reports of heavy firing 85 miles off the Atlantic coast indicating that a battle between a submarine and a steamer was taking place, was brought here by fishing vessels.

### Argentine and Chile Contribute to the Red Cross

Washington, Aug. 21.—Argentina has sent \$158,000 to the Red Cross. Chile is sending \$124,000.

General Foch Renews Smash Against Teutons, Who Are Everywhere on Defense.

### MANGIN'S ARMY ACTIVE

Main Attack Being Delivered by His Forces—Allied Gains Envelop Roye on Three Sides—Americans Push Foe From River.

Paris, Aug. 21.—The French forces fighting east of the Oise on a front of about 15½ miles have advanced to an average depth of about 2½ miles and captured numerous villages, according to the French official communication issued. More than 8,000 prisoners have been taken. South of Roye the town of Beauvraignes has been occupied by the French after bitter fighting.

London, Aug. 21.—From Soissons to the Belgian border the German armies in various sectors are being put to the test by the French and British and it is a test that seemingly bodes ill for the Teutonic arms, for nowhere have they been able to sustain the shocks.

Northwest of Soissons, from the Aisne to the Oise, north of the Oise to the region around Roye; in the Arras sector and northward on the famous Lys salient the Germans everywhere have been compelled to fall back under the pressure of the French and British troops.

In a new offensive launched by the French General Mangin over a front of approximately 15½ miles, from Bailly on the Oise to the Aisne near Soissons, the French in bitter fighting have carried forward their line to an average depth of two and a half miles and in the first phases of the battle had turned to French possession numerous enemy-held villages and farms. In addition more than 8,000 Germans had been herded behind the line prisoners.

London, Aug. 21.—According to reports reaching here, German forces holding the vital sector of the battle front between the Aisne and Oise rivers were hurled back over a 10-mile front by the French. It is stated that the French have penetrated the enemy positions to a depth of two miles.

This attack, which is a continuation of the assault made northwest of Soissons, is said to endanger the German positions at Soissons and on the Aisne. It is added that the French success probably will be followed by a German retreat from Soissons to the Chemin des Dames.

Quick Retreat Indicated. No details of the fighting are as yet available, but an advance of two miles in this sector would seem to place the Germans, both along the Aisne and before Noyon, in a serious position from which only an immediate retreat would seem to be possible.

Unofficial dispatches also state that significant local successes have been achieved by the French from the Oise northward to well past Roye. The line, as it is traced in dispatches, seems to be very close to the important town of Lassigny for which the French have been fighting for the last week or more.

Allies on Three Sides of Roye. The Germans' hold on Roye also seems to be weakened by the recent progress of the French north and south of the town. It would appear that Roye now is virtually enveloped on three sides.

Just northwest of Soissons the French have occupied the village of Vassens, which is on the eastward bank of a small stream which flows into the Oise at Morsain, a town to the southeast, which was captured by the French yesterday.

### FOR GALLANTRY AND HEROISM

Twenty-Five American Soldiers Win Honors in Battle.

Washington, Aug. 21.—Stories of gallantry and heroism displayed by individual American soldiers and marines in their stand which stopped the Germans on the Marne are beginning to reach the War department in official dispatches. General Pershing's communique announces the award of the distinguished service cross to 25 of the men, four of whom lost their lives in the acts of bravery which won the honor.

This remarkable photo marks the last scene in the career of a torpedoed liner. The vessel was proceeding on the calm sea when she was sighted by the U-boat. As the torpedo hit its mark a terrific explosion occurred, wrecking the engine room. Luckily the crew was saved, being picked up by a British patrol boat. The photo shows the last plunge of the liner as it disappeared.

## Sending Funds Away

IN the dead letter office at Washington a force of clerks is engaged opening letters, which for various reasons, mainly improper or careless addressing, fail to reach their intended destination.

Q Thousands of letters are opened which contain currency, the ownership of which it is impossible to trace.

Q But when bank drafts are found, their restoration is quite easy.

Q There are various ways of safely transmitting funds through the mails, but business houses prefer the Bank Draft. Post-office and express orders do not admit of many endorsements, and the exchange on them costs the sender more than when a bank draft is purchased.

Q Should a bank draft become lost a duplicate is issued on application and payment on original stopped. No bond is necessary, as in the case of some other forms of exchange.

Q The business-like and all-round satisfactory way to send funds away is to purchase a Bank Draft.

**FIRST NATIONAL BANK**

County Attorney S. F. Alderman has returned from Deerwood where he represented the state in the case of Sherman Jenke, charged with impersonating Jess Smith and securing a bill of goods from Mr. Engstrom, a storekeeper at Orland. Jenke was tried by a jury, found guilty and fined \$30 and costs or 60 days. He gave notice of an appeal. His attorney was D. J. Severance of Crosby.

Guaranteed Homer Pipeless Furnaces for sale by D. M. Clark & Co. 391f

Mrs. J. C. Wagar of South Broadway, is enjoying a visit from her family, Harvey Wagar and family of Pasco, Wash., Mrs. Andrew Robertson and son of Charleston, S. C., Mr. and Mrs. Ed Thelander and children of Great Falls, Mont., and Mrs. J. M. Reeves and daughters of the latter place. This is the first time the family have been together in several years and all are enjoying a pleasant time.

Big dance to be given by Maple Grove Red Cross Auxiliary Saturday evening, Aug. 24, at South Long Lake hall. Fine music, speaking, singing, with dedication of service flag, and supper. Excellent time guaranteed all who attend. 6714

Mr. and Mrs. Everett W. Everest and son Merwyn of Mt. View, California, visited with Mr. and Mrs. E. M. Phelps and W. H. Everest, the first of the week. For some years Mr. Everest has been employed by a printing establishment at Mt. View, but has recently been made manager of a like establishment in Buenos Ayres, South America, to which place they were enroute. They will visit in several places before sailing from New York on Sept. 15th.

**DOUBLY PROVEN**  
Brainerd Readers Can No Longer Doubt the Evidence  
This Brainerd citizen testified long ago.  
Told of quick relief—of undoubted benefit.  
The facts are now confirmed.  
Such testimony is complete—the evidence conclusive.  
It forms convincing proof of merit.  
Mrs. Amanda Erickson, 1103 E. Oak St., gave the following statement August 31, 1908: "I suffered with my kidneys for two or three years. A dull pain through my back and loins burdened my health and kept me in constant discomfort. I was subject to headaches and dizziness. I tried Doan's Kidney Pills procured at Dunn's drug store, and now I feel much better in every way."  
On November 5, 1917, Mrs. Erickson said: "Since I have recommended Doan's Kidney Pills I have used them several times when in need of a kidney remedy and they have always helped me."  
Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Erickson had. Foster-McBurr Co., Mfgs., Buffalo, N. Y.

**Caught Cold at Palm Beach**  
Southern climate is no protection against summer colds. Helen R. Saunders, 626 2nd Ave., W., Palm Beach, Fla., writes: "My severe cold on the chest was relieved by Foley's Honey and Tar Compound." ## BERT ORNE IN BRUSH WITH SUBS

Brainerd Boy Describes to His Parents, Mr. and Mrs. W. S. Orne, Experiences on Ocean

### BIG CONVOYS ESCORTED ACROSS

Depth Bombs Prove Efficient. Vessels on the Alert to Bog Subs Any Hour

In a letter to his parents, Mr. and Mrs. W. S. Orne, Bert Orne writes an interesting record of experiences on the deep. Ships' names, cities, etc., have been deleted.

At Sea, about five days from — on return trip to U. S., June 23, 1918.

Dear Mother: I am writing now in order that I can drop you a line as soon as we reach New York which will most likely be our destination. We have had a fine trip so far with fairly good weather most of the time. No doubt you want to know what I think of the other side, how many subs we sank and so on, so I am going to review my log of the trip up to the present time which I hope will be a satisfactory attempt toward a decent letter.

We left — as per schedule in company with the —, another tanker and arrived at — with nothing of importance happening en route. There were about 20 other merchantmen in the harbor and they were still coming in one by one all that night and the next day. We got under way — and the thirty-five ships which comprised the convoy steamed out about half a mile apart and making about 5 knots. It took until 8 A. M. for all the ships to get out of the channel. We maneuvered around all day and finally got into position, forming seven columns of five ships each with the auxiliary cruiser — in Englishman, in the lead which was to be our escort. Our position was the second ship in the third column from the left. Cruiser —

galloped that standard speed would be 8 knots, a slow convoy. For the next seven or eight days the weather was fine except for a few foggy days in which we lost two ships. I don't know whether they went back on "cane through alone or not. We entered war zone on the —, standing two on and four hours off watches, with two men at each gun and petty officer on the bridge. I stood the P. O. watch most of the time. We had a little excitement on the night of the —. There were three of us on watch on the forward gun and about 1:30 the last ship on the right file cut loose with a 6-inch gun. General quarters went, but the three of us on watch had the gun trained on (the noise—for we couldn't see anything) before the crew snapped out of it. We stood by the gun for half an hour and finally secured, giving it up as a false alarm. The crews went back to their quarters and turned in but that was not the end of it. They had just gone to sleep when she cut loose again—three shots quick—this time. We looked for trouble ever enough this time and were disappointed when we had to secure for the second time an hour later. Nothing more came of it so I guess Fritz thought that was a pretty warm reception for a dinky merchantman—5 six-inch. We sighted smoke at 7:45 the night of the — and in an hour there were six American destroyers around us to take us in. Two took the lead, two on each side and two in the rear. On the — the convoy was rearranged, all the ships going to —, 19 in all taking the left flank and those to the — the right flank in which we were included. Sighted smoke at 6 P. M. on the — and pretty soon there were light English destroyers with us making a total of 16. Some escort! Convoy separated on the 13th and ten destroyers went with the bunch going to — and six with us. About 2 A. M. on the 13th we felt the vibration of several depth bombs dropped by one of our destroyers on a sub. Sighted the entrance to the harbor of — I believe it's the prettiest harbor entrance I have ever seen. The coast is very abrupt and the hills are topped with ancient looking stone buildings which reminded me of historic cas-

ties, which some of them no doubt are. We came to anchor just inside and the destroyers started coming right away for their supply of fuel oil which was our cargo. I went aboard one of them, the U. S. S. — and listened to some of their experiences with Fritz. She was the one that dropped the depth bombs the other night. The sub was leaving a streak of oil on the surface and she took after her but did not get her. The — and — were also alongside and two others. The — was the one that sank the U. —, a big cruiser submarine of which I am sending you a picture. She had the "scalp" of the sub, one of her life buoys hanging on her stern and she was proud of it.

They got the news by wireless that the —, the cruiser that escorted us across and went with the other part of the convoy to —, was sunk by a sub. Two hundred and forty some survivors were picked up. Two destroyers were with her at the time. They also got wireless to the effect that the subs were getting pretty active on the east coast of the states. We showed off a liberty party at 1 P. M. on the 15th and all went ashore but those on watch. — is a town of about — population and lies on the top of a hill and on the slope extending to the waterfront which is lined with old castles and forts. The main street is —. The streets are narrow. The stores are small but have very attractive looking windows filled with souvenirs and trinkets. Everyone of military age is in uniform and a military atmosphere pervades the city.

I saw several truck loads of Yankee soldiers returning from the front, some of them wounded, and they were yelling like coyotes. There is hardly any traffic in the streets so the people take to them to avoid the crowds on the narrow sidewalks. No automobiles except those driven by American soldiers and sailors of the army and navy department. If you happen to get hungry ashore you've got to eat between the hours of 11 A. M. and 2 P. M. and no other time until 6 P. M. to 9 P. M. when everyone in uniform must be off the streets. While we were ashore the ship pulled up alongside the dock and started to unload.

German prisoners under a strong guard are employed on the dock. We managed to evade the guards however and got some rings from the Germans which they had made themselves and which they would trade for a small amount of tobacco. For six packages of Bull Durham I got three rings and a cigar lighter. I am sending a few things home which I wish you would keep for me. We returned to the ship at 9 P. M. and had liberty the next day from 8 A. M. to 12 noon, which time we spent in seeing the sights.

There are no places of amusement to speak of, but the opportunity of seeing some of the ancient castles and forts are rare and one which we did not miss. We showed off out in the stream the 16th evening and laid there until the 15th, when we got under way for "home, sweet home." We were with two other ships, a destroyer and a converted yacht. The destroyer and yacht left us two days or 11 knots. Two ships were sunk 60 miles east of us on the night of the 20th. Periscope sighted about 3000 yards on our starboard beam at 6:45 A. M. of the 20th. General quarters went and we manned our guns. But Fritz submerged and we were disappointed for the third time.

I will have to quit as this brings me up to the present date. Will add a little more if anything of any importance happens before we get in. Have another war zone to go through on the east coast.

## "COUNT ON ME"

In planning our fall term we want to count on every available young person in this section, because this year, above all others, your services are needed and needed badly if you have our expert training. You owe it to yourself and to Uncle Sam to take our course and render the most and the best service.

## The Brainerd Commercial College

Is the only school that you can afford to consider. We have more good things in store for you than you can get in any other school in the state.

## Everyone of Our Graduates is a Success

Our students are getting the very best positions open. Our only difficulty is that we haven't enough students to fill all the positions that are open to those who attend this college. You need our training and the good position we can put you in. The one thing to do is enroll now.

## We Guarantee to Save You at Least \$100

Over any other school on any of our big courses or your money back. For your own sake enroll in this college. You can't afford to do otherwise.

## Our Fall Term Begins Tuesday, September 3rd

Make it your red-letter day by starting your course with us. You will never regret it. Fill in this coupon and send it to us at once. It will mark a big turning point in your life.

### "Count on Me" Coupon

I want all the advantages you have to offer, and in order to be of the most value to myself and my country I want you to count on me enrolling in your college on Tuesday, Sept. 3d. I'm going to make it a point to be there.

## AMUSEMENTS

## At the Best Today

Mabel Normand, she of the extraordinary eyes and madcap moods, comes to the Best theatre today, in another of her Goldwyn Pictures. This time it is "Back to the Woods," and the plot bristles with excitement and, as must be expected of Mabel Normand, wholesome fun.

She is Stephanie Trent, daughter of a lumber king, who elects to go to a village as a poor little schoolmarm that she may meet the sort of man she can love. Stephanie is weary of society beaux. And of course she does meet him. He is Jimmy Raymond, outwardly a mountaineer, but really more than that. And Stephanie adores him at the start.

Learning that he is in danger from the rough element, Stephanie goes to his lonely cabin, perched on a precipice, to warn him. Jimmy locks the door and laughs at her, declaring that he resorted to a ruse to get her there. Stephanie throws herself across the sill of the open window and threatens to jump if Jimmy persists in keeping her there. Delighted, Jimmy declares that it's all right—he will use the situation in his next newspaper serial. Then he releases the girl and she, angry and humiliated, promptly makes her identity known to her father's employees. A spirited fight follows in which Jimmy is wounded. Stephanie then pities him and he learns who she is, after she nurses him back to health. Nevertheless, the young fellow is firm in his resolve to use the story despite Stephanie's pleadings.

What follows forms a surprising and delightful climax to a story refreshingly different.

## NOTED PEOPLE LEFT-HANDED

Many Famous Painters and Writers Have Been Ambidextrous—Hobby of Late Charles Reade.

Ambidexterity was one of the hobbies cherished by the late Charles Reade. Dr. Alexander Mott of New York and Doctor Pancoast of Philadelphia could use either hand with ease. So could Leonardo da Vinci and Michelangelo; Holbein used his left by preference; Menzel made his oil paintings with his right hand, but his drawings and aquarelles with his left.

Julius Caesar and the historian Tacitus are said to have been left-handed, as well as the philosopher Schopenhauer, the late Queen Victoria and former Speaker Cannon.

As to the lower animals skilled observers disagree. Gould and Beinton believe that they use the two sides of their bodies indifferently. Bardeleben, however, says that when we ascend the scale to the monkey type we find the gibbon and the orang-utan right-handed, and the gorilla and the chimpanzee left-handed, which seems to divide the honors pretty evenly.

## It's in the Air

Windblown pollen, carrying the germs that cause hay fever, is abroad in the land. One remedy is known to give relief and comfort from choking, gasping asthma and tormenting hay fever. Foley's Honey and Tar spreads a healing coating on inflamed membranes, stops coughs and colds. H. P. Dunn, druggist.

Toledo, O.

## LINGERIE TO BE ADORNED

"Frillery" Must Be Ornamented With Hand Painting, Is a Coming Edict of Fashion.

Well, girls, you will soon be wearing your own art gallery. Painted lingerie is coming, and who knows but what you will have a birdseye view of the Suez city, with its mills in full blast, running around the bottom of your skirt? For it is said that lingerie that once screamed will make its painted approach much more noiselessly and without ostentation, but with force. Oil paintings done to suit individual taste on the lingerie are among the latest announcements. Each place is to follow a master design, and sets will have their day in court. Thus, a mosquito-net dress will put a spider web stocking most eminently in the shade, if not entirely out of business, and a whole flock of vultures opens up before those of us who have eyes with limitless possibilities as to scenic effects, with startling backgrounds and atmospheric tonalities. "Washington Crossing the Delaware," "Joan of Arc Listening to the Voices," "The Battle of Waterloo" and examples of the shot-to-pieces school may all be harnessed to the new fad. The artistic temperament may now take on a new lease of life, in spite of the agitation in favor of a tax on art ranging up to 25 per cent. It may mount upon eagle's wings. It may run without weariness. It may—but what's the use? The new fad is a positive boon to struggling artists from Maine to California, whose productions have, since the war, had to confront not only a sluggish, but a positively dead market. Let us all rise in our places and give three rousing cheers for the application of painting to lingerie.—New York Times.

## LINKS ITALY AND AMERICA

Newly Installed Wireless Telegraphy Plant is the Most Powerful That Has Yet Been Built.

The announcement that Italy and the United States have recently been connected by wireless telegraphy deserves more notice than it has received. This achievement probably makes a back number of the great wireless station at Nauen, near Berlin, which has been so useful to Germany and which, when the war broke out, claimed to be the most powerful in the world, with an effective range of between 5,000 and 6,000 miles. From the nearest point in Italy to the United States transatlantic station at Arlington, near Washington, is not less than 6,200 miles, and to send an intelligible message across that distance might be more than even Nauen could accomplish. Owing to the hostility between the ether waves which carry wireless messages and sunshine, it is always easier to send messages long distances in northerly latitudes than in those more South, and the power required to cover a given distance increases with nearness to the equator. The wireless route between Rome and Arlington is for a good part of the way at least 800 miles nearer the equator than that between Nauen and the United States, which fact, considerably adds to the

achievement of the Italian and American experts.—London Chronicle.

## Women as Aviators.

"Out of a thousand women who want to fly," says C. G. Gray, London aviation expert, "you might find one who has the right kind of nerve for flying. A great many women learned to fly before the war, but I never came across more than one who could really fly. She was a very exceptional woman altogether. In the United States Ruth Law was the first woman to fly from Chicago to New York. She came of an acrobatic family. Katherine Stinson, another American girl, nearly completed the same feat recently. But for one woman of this type you have thousands hysterically anxious to fly, and they would only break their necks as well as government property and be a general nuisance."

## Airplane Mail Popular.

An average of 1,000 packets of mail are now being carried regularly every day between Vienna and Kiev by airplane. The distance between the two cities is 750 miles and the claim is made that this is the longest route now being operated in any part of the world. The trip takes from ten to twelve hours, compared to forty hours by train. It is made in four stages, the intermediate stops being Cracow, Lemberg and Proskurov.

## WORRIES FOE WAR LORDS

German Leaders Fear Effect of Reverses on People.

Washington, Aug. 21.—Fearing the effects of west front reverses and of democratic propaganda upon Teutonic morale, the Prussian war lords have decided upon a pan-German propaganda and a tightening up of the little remaining freedom of the press and speech of the empire, Allied diplomatic advisers declared.

German newspapers are declared to be giving prominent space to announcements that ministers will go before the people to explain facts concerning important problems that are facing the Germans.

## PREPARED TO SHELL PARIS

Enemy Had Number of Guns Sixty Feet in Length.

Paris, Aug. 21.—The Germans when they started their last offensive operation were preparing for a siege of Paris from a range of 25 miles, the Petit Parisien declares.

A number of 60-foot guns firing shells weighing three-quarters of a ton each were ready on railway trucks to be pushed forward behind the advancing armies, the newspaper said.

## STUNG TO DEATH BY BEES

Hundreds of Insects Attack Farmer Removing Honey.

Asco, Minn., Aug. 21.—Word has just been received here that A. A. Beulow, a farmer living near Asco, was stung to death by bees. Beulow attempted to remove honey from a hive when the bees attacked him. Hundreds of them stung him and before he was able to get into his home the poison rapidly spread through his system and caused death.

BELGIAN SOLDIER, INJURED,  
HELPS TO CAN THE KAISER!

J. Paul Verrees, a member of the High Institute of Fine Arts at Brussels, fought for three months in the trenches at Dixmude and lived on sardines and bread. He was wounded at Romscapelle and sent to a hospital in Scotland. He is now doing cartoons for the National War Garden Commission. The above cartoon he made for the free distribution among the women of the United States in order to help in the free distribution among the women of the United States of its book on canning and drying of vegetables and fruits. Write to the Commission for it.

## Hair Helps---

Hair Tonics, Shampoos, Green Soap, Tar Soap, Combs, Brushes

Each and every item in this list means healthy conditions for the hair. Perhaps you have a favorite of your own, however. It may be in a tonic or in a shampoo, in a comb or in a brush, in a soap or in a vibrator. In any case we have them all. You can buy them to best advantage here.

Swanson Brown  
 Army Navy

## How the Huns Are Peppared

Imagine a battle—a battle in which our boys are firing 5,000 of the 1918 model Browning machine rifles, the type that will be exhibited with the combined government exhibits at the Minnesota State Fair, Sept. 2 to 7.

Imagine this battle lasting one hour, and these guns shooting steadily through the hour at their maximum rate. Is your imagination working well? Then, imagine how many bullets those rifles would have fired at the end of the hour.

Steady, now! At the end of the hour they would have peppered the Huns with 112,500,000 rounds of ammunition.

These figures are from officers of the ordnance department of the army, who believe that the United States has succeeded in procuring the best machine gun ever made.

The ordnance display in the government exhibits will have other items to appeal to American eyes and hearts. There will be a Lewis aircraft machine gun of the same calibre as the Browning, but differing materially in its construction; a mountain gun of 2.95 inches calibre; United States army rifles of the 1903 and 1907 models, and wooden blocks showing the difference in penetrating power between the old and the new rifles.

A trench periscope will be shown, demonstrating how our men keep tabs on the Fritz without exposing themselves to snipers; a trench helmet will demonstrate the latest and most favored style of headgear on the western front; there will be hand grenades of the kind that keep many an ante-bellum pitching arm in shape and drop bombs of the type that threaten danger to the foe when our planes wing into view.

These form only a part of the army exhibits, which were assembled by the Committee on Public Information. The entire display is expected to bring Americans more closely in touch with our fighters on the "frontiers of freedom."

### The Egyptian Scale.

The seven great tones of the Egyptian scale represented among the temple priests the planets of Sun, Moon, Mercury, Saturn, Jupiter, Mars and Venus. The scale mystically represented also the seven days of the week, the different keys indicated the gods and goddesses of the old time. The veil of the old Egypt, says one writer, has never been lifted. Nor can the modern mind follow through all its mazes that system of music, philosophy, religion, astrology, astronomy and pantheism of which one of the notable expressions was the music drawn from the harp and lyres. From these mystical sources have descended to us the modern orchestra, the stringed choir, the violins, cellos, basses, violas. The most direct example—the harp—is no more now than a mere adjunct.

### Prepare For the Hot Wave

The hot sun is doubly dangerous if there is a mass of undigested food in the stomach. Foley Cathartic Tablets give prompt and sure relief. They act gently but do their work thoroughly. They cleanse the bowels, sweeten the stomach and benefit the liver. For indigestion, biliousness, bad breath, bloating, gas. H. P. Dunn, druggist.

## PUTS OLDER MEN IN FIRST CLASS

House Committee Adopts Important Amendment to New Draft Measure.

## PASS BILL THIS WEEK

Change Provides That Men Above the Age of Twenty Years Shall Be Called Before Those Nineteen and Eighteen.

Washington, Aug. 21.—In a race to complete the legislation as soon as possible both Senate and House will begin consideration of the manpower bill, extending the draft age limits to 18 and 45 years, Thursday, under plans agreed upon.

An amendment to the bill was adopted 9 to 7 by the House military committee, providing that men above the age of 20 years shall be called before those 19 and 18, with the latter to be called last.

With the bill ready for Senate debate Thursday, the House committee closed its hearing and virtually completed the measure. The bill, according to the committee's plans, will be brought before the House Thursday. An agreement with Speaker Clark and Representative Sims of Tennessee, in charge of the pending manpower bill to give the manpower measure right of way on Thursday, was secured by Chairman Dent, who believes the draft bill can be passed in a single day.

### In Senate Saturday.

Passage of the bill by the House Thursday and by the Senate by Saturday is planned by leaders.

Vigorous contests, however, are expected in both branches. In the Senate sharp debate is expected in the "work or fight" amendment, while in the House a controversy is brewing over the committee's amendment to defer calling boys of 18 and 19 years, a mandatory provision, which Secretary Baker, General March, chief of staff, and Provost Marshal General Crowder have vigorously opposed.

With both Senate and House committees pledged to lowering the minimum age to 18 years, it appeared the age limits will be fixed as recommended by the War department.

### 5 U. S. FLIERS RANK AS ACE

58 Airmen Credited With Downing 500 Enemy Planes.

With the American Army in France, Aug. 21.—Statistics covering activities of the first American pursuit aviators up to Aug. 1, show strides made by American aviators since the United States entered the war.

No less than 58 aviators are credited officially with downing one to five planes each. Seventeen machines are credited to the late Raoul Lufbery. Five aviators are credited with five victories each. Fourteen others have two victories each and 32, including the late Lieutenant Quentin Roosevelt, are credited with one each.

These figures do not include the records of other squadrons, which have been more successful. Downing of five enemy planes entitles a flier to be called an ace.

### BAGS FOUR GERMAN PLANES

Noted French Aviator Downed Them in Twenty Seconds.

Paris, Aug. 21.—Lieut. Rene Fonck, the famous French aviator who shot down three German aviators on Aug. 14, did the trick in 20 seconds. Lieutenant Fonck had been cruising 10 minutes, escorted by two patrolling machines, when he spotted four German battle planes flying in Indian file a few hundred yards apart. He dropped the first in 10 seconds, then the second with his machine gun, the third dodged sideways and escaped, but the fourth he bagged.

Lieutenant Fonck is considered the greatest French aviator since Captain Guynemer. He is credited with 60 foe planes, his best day's performance to taking six.

### POPE COUNSELS PATIENCE

Vatican Sends Letters to Bishops on Irish Question.

Washington, Aug. 21.—The Pope has taken cognizance of the Irish constitutional problem, urging patience and forbearance "in the present delicate situation" on the part of the clergy of Ireland, Rome cables here announce.

Letters have been sent from the Vatican to the Irish bishops, the advice declared, inspiring the Christian clergy to fortitude and recommending that the utmost wisdom and prudence be exercised by the representatives.

### Lectures Men On Morals.

With the American Army in France, Aug. 21.—In a general order just issued General Pershing addresses the army on the social evil and urges continence as "the plain duty of every member of the American expeditionary forces, both for the vigorous conduct of the war and the clean health of the American people after the war." General Pershing directs the commanding officers to urge moral cleanliness on the men as their duty and the best training for enforced cleanliness of life at the front.

## CONGRESS DENIES IT DELAYS BILLS

BOTH HOUSE AND SENATE SAY THEY ARE EXPEDITIOUS WITH WAR MEASURES.

### ONE REASON FOR CRITICISM

All Boys' Schools Now Fitting Pupils To Become Officers—Senators Who Support Suffrage Resent White House Demonstrations.

By ARTHUR W. DUNN.

Washington.—Congress resents insinuations that it is in any sense a slacker in the matter of legislation for carrying on the war. From time to time prominent men in both houses take occasion to deny the imputation that war work or war preparation has been in any way impeded by failure of congress to act promptly in passing bills demanded by the administration. Whenever a senator or a representative speaks on this subject he usually takes occasion to review the war legislation of congress since it was called together April 2, 1917. A very remarkable array of bills can be presented under such conditions, for congress during that time has not passed much legislation that did not have something to do with the war.

Speaker Clark is one of the most vigorous defenders of congress, but he devotes his time particularly to the house of representatives. He and some other leaders in the house cannot forego the pleasure they take in jabbing the senate on such occasions and pointing out how unlimited debate in the senate tends to delay congressional action. On the other hand such senators as Reed of Missouri and Cummins of Iowa point out that nothing more than legitimate debate which tends to the improvement of legislation has been indulged in by the senate in the consideration of war measures.

One reason why congress is criticized whenever delays are noted is because a widespread impression prevails in many editorial offices throughout the country that all delays in Washington are due to congress. This idea has been fostered by congressional critics, and besides there is a natural tendency to support the administration rather than congress when discussing events and happenings in Washington. Then it is far easier, and perhaps much safer, for editors who feel the desire to take a crack at somebody to hit a collective crowd like congress rather than a somewhat limited circle like the administration.

One effect of the war has been to make every boy's school a military school. A glance at the advertisements of various schools shows that in every state military instruction and drill are included as a part of the course. Before the war there were quite a number of schools that specialized in military matters and boys who graduated from them were ready for military duty, and a great many of them have become first-class officers in the army. It now appears that every military school is fit to young men to be officers in the army.

During the recent discussion on the latest woman suffrage demonstration in front of the White House Senator Thomas of Colorado hinted at a possible change of attitude by senators who now advocate the suffrage amendment. Nothing of that sort is likely to occur, but it is evident that a great number of senators supporting the amendment seriously objected to the demonstration and criticism of the president. In his last campaign Senator Thomas knew what it was to have this same suffrage contingent against him. For some reason they went into his state and tried to defeat him, although he had been a consistent supporter of suffrage for a quarter of a century.

Besides a lot of important business to transact, the senate has stacked up before it several days of eulogies for departed senators. Seven senators have died since the beginning of the present year. They were: Newlands, Nevada; Brady, Idaho; Hughes, New Jersey; Huston, Wisconsin; Broussard, Louisiana; Stone, Missouri; Tillman, South Carolina. There will be considerable to say about such men as Stone, Tillman and Newlands, as they had attained a very prominent place in congress.

Practically all the speeches printed for distribution as campaign material by congressmen who voted against the declaration of war have two things in common. For one, they invariably explain that Congressmen Kitchin of North Carolina and Sherwood of Ohio voted against war; and the other point is that somewhere in the speech is bound to appear a quotation from Dr. Samuel Johnson to the effect that "Patricism is the last refuge of a scoundrel." These antiwar men make much of the fact that the war was opposed by several prominent congressmen, and two that are invariably mentioned are Kitchin, the house leader, and Sherwood, who was a Union general in the Civil war. They are hoping that this will serve as an excuse for their own actions.

As a pickpocket alarm a New York man has invented a device to ring an electric bell when a pocket is entered by an unauthorized hand.

## Every American Must Do His Part in Providing Essentials for War

By CLARENCE OUSLEY, Assistant Secretary of Agriculture

American farmers will not need outside help to feed themselves, and it is time for city consumers in the United States to take some concern for their own sustenance.

The time has come when by public opinion or by local law, state and municipal, but most important of all by the example of men of affairs who are the leaders in their communities, every able-bodied man must be persuaded to cease doing things that women can do as well or things that are unnecessary from the standpoint of war and needful business activities. In a

time like this no man has a moral right, whatever his fortune may be, to employ another man to render any service of mere comfort or convenience when the finest young men of the United States are in France digging ditches, sawing timber, laying rails and playing with death, and when the finest young women of the United States are scrubbing floors in hospitals, and it is a sin that almost approaches the unpardonable offense against civilization for any man or woman in the United States to engage in a wasteful or unnecessary service.

Nor can we afford to hope for the starvation of the central powers. While the German conquest of Russia and the Balkan states has interrupted agriculture, which will not recover its normal activity this year, it cannot be doubted that the central powers will gain from these conquered lands enough food to sustain them another year, and unless there is counter-revolution beyond any present prospect the supplement of food from these countries will increase from time to time. Unless Germany has lost her genius for agricultural efficiency her experts are right behind her armies in the conquered territory furnishing expert information and stimulation and holding out to the impoverished peasants promises of high prices and prosperity beyond anything they ever experienced.

Responding to the appeals of the government and accepting the advice of the department and the land-grant colleges as to the crops needed, and giving the least concern to the crops that seemed to the individual farmer to promise the greatest profit, the farmers of the United States have put under the plow this year more land than was under the plow last year, and if the weather continues favorable but one thing can prevent the continuance of food sufficiency. That one thing is farm labor.

The farmers have planted the crops. God has sent the sunshine and the rain to make them grow. The farmers alone cannot harvest the crops. We must have the crops. What are we going to do about it?

We have got to strip for war as England, France, Italy and Belgium have stripped. We cannot win the war and maintain peace-time habits and conveniences. We cannot win it by depending upon the men, women and children who are now on the farms and who are working from daylight to black dark.

Last year in many agricultural regions where ordinary farm labor was not available on call the people of the towns and cities closed their stores and shops and offices for a day at a time or for such a time as was necessary and saved the crops. By concert this can be done anywhere without material loss to any business or any industry.

Unselfish service is the imperative demand of the hour.

# LITTLE PINE DITCH CASE IS HEARD

Tobique Land Co. of Duluth Objects to Assessment of Benefits by the Viewers

DULUTHIANS HERE TO TESTIFY

G. G. Hartley Opposed to Ditch System in General—Farmers Maintain it Necessary

Judge W. S. McClenahan of the district court heard in chambers an appeal of the Tobique Land Co. of Duluth wherein the corporation objected to the assessment of benefits by viewers in the matter of County Ditch No. 15, which is partially constructed in Little Pine township, Crow Wing county.

The Tobique Land Co. owns about 1,000 acres that are affected by the ditch. Witnesses for the company were G. G. Hartley and Leon E. Lum of Duluth and C. E. McDonald, a timber cruiser.

The tax is not a heavy one, being spread over 10 years. All the settlers are paying it without objection. The ditch is seven miles long with twelve miles of laterals. The main ditch is completed.

Mr. Hartley in general was opposed to all drainage ditches as now constructed in northern Minnesota. He maintained they were not constructed right, did not drain the land and that the whole plan was a waste of money and that such land would burn after the ditch was put in. He claimed it was peat land in Little Pine township.

The farmers claimed it to be bog land with a hard bottom. Judge McClenahan took the case under advisement. Each side was given ten days to file briefs.

Among the Little Pine farmers testifying as to the end of the ditch were Frank Mickelson, Peter Mickelson, Peter Peterson, George Hughes and August Kusrow.

Frank Mickelson is farming forty acres and has 15 cows. He said the crops were the best ever known in his section and that the ditch work was of great benefit.

Peter Mickelson has twenty-four cows. Peter and Frank Mickelson are members of the Farmers Cooperative Creamery at Aitkin and haul their cream there. Peter has oats going 60 bushels to the acre, spring wheat 25 bushels and potatoes 200 bushels to the acre. He is town clerk and a member of the school board.

Peter Peterson has forty acres in oats, five acres in wheat and 38 head of cattle. He has a sawmill and planing mill in operation. He has sixty acres under cultivation.

His oldest boy, Louis, is with the Marines in France and making a good record in the corps. The first German he captured shouted "Kamerad," but Louis kept an eye on him and disarmed him. Louis sent home a German five mark piece of paper money as a souvenir and it is on display in the window of Murphy's store in Brainerd.

Two other sons are in war, John in the engineers corps in France and William with the heavy artillery taking pot shots at the Germans.

George Hughes, member of the school board at Little Pine, has thirty acres under plow and will have a bountiful crop of oats, wheat and rye. Wheat will go 40 bushels to the acre.

August Kusrow has a forty acre farm and considerable planted in rye. August uses no show shoes in the winter as his own No. 12's are ample to bridge any passes.

From Brainerd to Little Pine is just fifty miles and the community is in the extreme northeast corner of Crow Wing county next door to Cass county. This ditch drainage which empties into Little Pine river is the

first big improvement work ever asked for in that section and carried out by the county. They all claim they are well satisfied with the improvement and that it is an aid to larger crops for Uncle Sam.

## 49 TO 59 MEN CAN ENLIST NOW

Corporal Wm. Slowe has received orders to take the enlistments of men aged 16 to 56 for the different staff corps.

## ROLL OF HONOR

In a letter to his parents, Mr. and Mrs. Archie Purdy, Sergeant Ray Purdy writes of their camp near a French village which compares well with the lake region at Nisswa and Hubert near Brainerd. The soldiers get eggs, butter and milk from the countryside and laundry work is also done. The Yanks and the French get along splendidly. Sergt. Purdy is in a machine gun battalion and meets Quinn Parker, former merchant and postmaster of Merrifield, every day.

## BROKE HIS ARM

Fred Hicks Went Through Wind Shield in Auto Accident on Oak Street

Fred Hicks broke his left arm as he shot through the wind shield of the driver driven by Walter Lindquist from Cuyuna to Brainerd. It happened at the Four Mile corner on the Oak street road and Lindquist swung into a ditch to pass another car. All were thrown out but only Hicks was injured.

## NOTICE

In order to comply with the wishes of the food administration we will go on a cash and carry system Sept. 1st. There will be no delivery direct to consumers after Friday, Aug. 30th. Delivery to stores, hotels and restaurants will continue as before.

ERICSSON BROS. BAKERY.

## UNITED STATES CIVIL SERVICE

The following U. S. civil service examinations for positions in the 8th Civil Service District (Minnesota, Iowa, Nebraska, North Dakota and South Dakota,) will be held at the Brainerd postoffice in the near future:

Clerk with knowledge of stenography or typewriting, Sept. 21, 1918. Regular stenographer and typewriter examination, every Thursday. File clerk, August 31, 1918.

First grade or clerical, September 7, 1918.

Tent inspector, and inspector of clothing. The latter two positions are for men only and do not require a written examination. Application for these positions may be made at any time until further notice.

For complete information relative to any of the above examinations and also for application blanks, apply to J. J. Nolan, local secretary U. S. Civil Service Board, postoffice building.

Dye From Osage Orange Wood. Osage orange wood is a source of dye and can be used to supplement the imported fustic wood as a permanent yellow for textiles.

## ALVIN EASTMAN Resident of Brainerd Forty Years, Identified With Lumbering, Passed Away

Alvin Eastman, age 88, died of complications incident to old age shortly after midnight Wednesday at his home, 214 South Second street. He had been a resident of Brainerd over forty years.

For many years he was in the lumber business and was agent for the Cross Lake Logging company. He was born in Watertown, N. Y., on November 18, 1829. His first wife died some years ago and he was married later to Miss Elizabeth McGaffey at Anoka.

He is survived by her and four daughters, Mrs. Charles Long, of Brainerd; Mrs. Cinderella White and Mrs. Nettie Nichols of Marionette, Wis.; Mrs. Alice Dean of Tampa, Florida, a son Edward Eastman of Marionette, Wis., and a stepson, Wallace McGaffey of Brainerd.

Mr. Eastman prided himself on being a distant relative of President Zachary Taylor. Mr. Eastman's mother was a Taylor, of the family of the president.

He was the father of six children, of whom five are living, grandfather of 22 and great grandfather of 29.

The funeral will be held Thursday Aug. 22, at 3 P. M. from the Presbyterian church, Rev. W. J. Lowrie officiating.

## "ASH CANS" DEPTH CHARGES

Some "ash cans" are in the display being sent by the navy with the combined government exhibits, to be shown at the Minnesota State Fair, Sept. 2 to 7. "Ash cans" are what the "Jackies" call the depth charges that have been smashing so many German submarines lately.

"Periscope on the starboard beam, sir," shouts the lookout on one of Uncle Sam's guardians of the deep, and a moment later:

"Torpedo just missed our stern by a couple of yards!"

"Stand by with the depth charges," commands the captain.

An "ash can" containing TNT or some other high explosive, splashes into the water. The fighting ship speeds on and is well out of danger when the explosion comes.

The tip of a finger periscope lurches drunkenly into view in the swirl of tumbling waters where the depth charges are still detonating. The periscope reels slowly out of sight and reappears again, struggling drunkenly, while a prowlike structure lifts itself above the water and gradually assumes an almost perpendicular position. Suddenly it slips downward out of sight. There is one U-boat less.

## SHEEP KILLED BY WOLVES

Phillip Betzold Loses Eight Sheep on Farm in South Long Lake Township

As the family of Phillip Betzold ate dinner at their home three miles south of Brainerd, wolves attacked their flock of sheep and killed eight. Farmers throughout the county are complaining of the voracity of the wolves which seem to have no fear and assail hen coops and sheep without compunction.

## Locomotive Engineer Writes

When the kidneys are not working properly, backache, stiff joints, rheumatic pains and suffering result. George McLain, Turtle Lake, N. D., writes: "I am a locomotive engineer. I had a pain in my back and my bladder action was very irregular. I took Foley Kidney Pills and was relieved in a couple of days." H. P. Dunn, druggist. mwf

## 174 AMERICANS DIE IN ACTION

Last U. S. Casualty List Contains 265 Names. Washington, Aug. 21.—General J. J. Pershing has reported 265 casualties from the western front. One hundred and forty-seven Americans were listed as killed in action, 163 wounded, 1 dead of wounds, 7 dead of disease, 4 dead of accident and other causes and 3 reported missing. The American casualties to date total 19,242 men.

The following Northwest names appear on the list: Private Albert C. Rogers, Noonan, N. D., killed in action; Private Bror Olof Hjelin, Cambridge, Minn., killed in action, previously reported wounded; Corp. Chas. G. Zalesky, Willow River, Minn., died of disease; Private Chas. F. Hardy, Redwood Falls, Minn.; Private Wm. H. Prokashch, Finlayson, Minn., severely wounded.

## Husband and Wife

Mrs. Frank P. Wood, Box 18, R. P. D. 2, Morrill, Me., writes: "Foley Kidney Pills help me so much. My husband also has received much benefit from them." He was so lame he could not stoop over and now he feels no pain. Lame back, sore muscles, stiff joints, rheumatic aches and pains quickly conquered by Foley Kidney Pills. H. P. Dunn, druggist. mwf

## COUNCIL HAS MEETING MONDAY

Municipal Traffic Post Advertising Scheme is Tabled Indefinitely by Council

## BLOCK 185 DESIRES AN ALLEY

Grading West Third Street, West Brainerd, is Referred to the City Engineer

The council met in regular session on Monday evening, all members being present except President F. M. Koop. Vice President Andrew Anderson presided.

Regarding storm windows for the city hall, Aldermen Gustafson and Lyonnais moved that the same be referred to the city property committee for report at the next meeting, which carried.

Alderman Turcotte, chairman of the street committee, reported verbally on the proposed grading of a portion of Third street of West Brainerd. On motion carried by Aldermen Lyonnais and Hall the matter was left with the city engineer with power to act.

Alderman Turcotte reported verbally on the condition of Sixth street south where the lateral sewer has been put in; also on Norwood street west of the St. Paul track and on the application of the Municipal Appliance Co. for the installation of street traffic posts at the intersection of Laurel and Sixth streets and Front and Sixth streets, and on motion by Aldermen Turcotte and Hall, carried, the application was tabled for an indefinite period.

Several street lamp posts need replacement, the latter having been destroyed and the city attorney was requested to take measures to have same replaced.

Sewer warrants, on motion of Aldermen Hall and Gustafson, were ordered issued in favor of The Sherlund Co., being two each for \$122.03 and one for \$122.02, due in one, two and three years respectively, covering the construction of lateral sewer B-7, D-4. They bear 6 per cent.

A petition for establishing an alley in block 185 in the original town of Brainerd was presented. This block is bounded by Fifth and Sixth, Pine and Quince streets. It was referred to the street committee for a report at the next meeting. The same course was taken with reference to the road leading from the old Gull lake road to the R. R. Wise and Edward Boppel farms.

The city clerk was instructed to write the State Bureau of Fire Insurance on the subject of the city's contemplated improvement in fighting fires.

In the matter of the reported insanitary condition at the Model Laundry flats, the same was on motion by Aldermen Lyonnais and Hall, duly carried, ordered referred to the board of health.

City Engineer Campbell reported the semi-monthly pay roll of street employees amounting to \$387.10 and on motion of Aldermen Hall and Peterson it was allowed and ordered paid.

City Clerk Anton Mahlum's report on receipts and disbursements for July was read, accepted and filed.

### Large Size Skirts of Poplins and Serges

With the receipt of an express shipment of skirts yesterday, our stock of large size skirts is again quite complete.

This includes skirts from 30 to 36 waistline in styles most suited to the size.

One splendid feature is the beautiful tailoring which characterizes these garments.

## H. F. Michael Co.

## MINNESOTA

Do You Want a Mortgage on This?

A mortgage on the whole United States is exactly what you get when you buy War Savings Stamps. Uncle Sam's "I. O. U." backed by the entire resources of the country—at 4 per cent interest, compounded quarterly.

War Savings Stamps are a gilt edge investment for everybody—the best chance to save and invest small sums of money that has ever been offered in financial history.

## Do Something Better Than the Other Fellow--- and ADVERTISE

Advertising cannot accomplish the impossible any more than barren ground can yield rich crop.

But how advertising does make things hum when the product and proposition are right, the men and methods above board, when there's an honest purpose and earnest effort from bundle boy to general manager to serve efficiency, to deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue your organization with the spirit of true service, make your business worthy of the good will, the confidence, the patronage of the people.

In this fertile field then sow the seed of advertising and it will bring forth abundant crops in increased business and augmented prestige.

Your store news in the Dispatch will be read in practically every home in Brainerd and vicinity every evening.

## NUTRATED IRON

The Power Behind Strong, Keen, Red-Blooded Americans

"To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. Nuxated Iron often increases the strength and endurance of weak, nervous, run-down people in two weeks' time. It is now being used by over three million people annually, including such men as Hon. Leslie M. Shaw, former Secretary of the Treasury, and ex-Governor of Iowa; former United States Senator Richard D. Dandridge of Delaware, at present Major of the U. S. Army; General John L. Clem (Retired), the drummer boy of Shiloh, who was sergeant in the U. S. Army when only 12 years of age; also United States Judge G. W. Atherton of the Court of Claims of Washington and others. Nuxated Iron is dispensed by all good druggists everywhere.

## The First Telephone.

Robert Hooke, in 1637, conveyed sound to a distance by distended wire; and between Hooke's time and that of Elisha Gray considerable progress was made in the direction of the telephone; but it appears that the first real telephone was given to the world by Alexander Graham Bell, about 1877.

## TURN AGAINST ENEMY

Petrograd Populace Blames Germany for Food Shortage.

Hundreds Reported Slain in Riots in Petrograd Streets—Trouble in Poland.

London, Aug. 21.—According to an Amsterdam dispatch to the Exchange Telegraph company, hundreds of persons were killed and wounded in a vegetable battle between Lettish guards and rioters during food disorders in Petrograd.

The dispatch which quotes Petrograd advices by way of Berlin says that after the city had been without food for two days a procession of workmen marched through the streets shouting "Down with the Germans. Down with the Kremlin!"

The battle between rioters and the Lettish guards occurred before the Smolny institute. Martial law has been proclaimed in Petrograd.

Heavy fighting has been in progress on the Usuri front, says Reuter's correspondent at Vladivostok, and Czechoslovak outposts have been forced to retire.

A contingent of Japanese marines, the correspondent adds, has landed at Nicolavsk, on the Amoy.

## RAIN CHECKS FOREST FIRES

Flames Cause Considerable Damage in Northern Minnesota.

Virginia, Minn., Aug. 21.—A steady downpour of rain was of aid in extinguishing forest fires which burned a stretch of 40 miles along the Mesaba and Vermilion ranges. Hundreds of fire fighters also fought the blazes.

Because of the spread of forest fires near Virginia the police and fire commission at a special meeting recommended that the city council build trenches in the land south of the Virginia and Rainy Lake company mill as a protection.

Poultry—Country dressed sells at from 2c to 3c above prices on live.

## Breaks Hand Grenade Record.

Paris, Aug. 21.—That baseball is a fit preparation for one branch of the military service was shown recently when Gordon Sarre, an American member of the foreign legion, established a new world's record at Fontainebleau for throwing the hand grenade. Sarre threw the death-dealing grenade a distance of 70 meters and 50 centimeters, or nearly 215 feet. A few years ago Sarre was a baseball player on one of the best known preparatory school teams in the United States.

## PREPARING TO HANDLE GRAIN

Great Lakes Ore Shipments Break All Records.

Duluth, Aug. 21.—Handling of the big grain tonnage which soon will move toward the Head of the Lakes for transportation east, is the leading topic of discussion in marine circles here. Ore shipments have broken all records and the successful transportation of ore causes shipping men to believe that many boats will be released early for the grain trade.

## KARL REFUSES TO SEND AID

Rumor That He Won't Let Austrian Troops Go to West Front.

Zurich, Aug. 21.—Emperor Karl has refused to send Austrian troops to the western front, according to a rumor current in Vienna, dispatches declared. Unconfirmed reports received recently stated that one Austrian division has been observed on the German lines on the west front. The minimum said to have been demanded by the kaiser was 15 divisions.

Liberty Bonds Touch 101.10.

New York, Aug. 21.—Liberty 3 1/2 per cent bonds, continuing their upward course, sold at 101.10, attaining a new high mark on the Stock Exchange.

Soldier Is Exonerated.

Camp Dodge, Aug. 21.—Russell L. Earl, former member of the 339th infantry, has been exonerated by a general court martial here on charges of having been responsible for the death of Private Julius Heyerhoff, Fort Dodge, killed June 28 when an army rifle in Earl's hands was accidentally discharged. Earl, as company mechanic, was endeavoring to extract a cartridge clip which had become stuck in the weapon, when it was discharged, the bullet entering Heyerhoff's thigh and severing an artery.

W. S. S. WORTH \$5.00 JANUARY 1, 1923

# Every Woman Who Saves Is a "Goddess of Liberty"

THIS advertisement is for the women of Minnesota—for mothers, wives and daughters who are ready to serve the nation. This appeal is intended to reach the women who do the daily buying for the households of Minnesota, and to bring home to them the National necessity of Thrift in war-time.

American soldiers must be supplied with clothing, food and equipment—more will be needed from month to month. Ships must be built in which to send these supplies—more ships will be needed from month to month. Men and materials must be had for producing supplies, for building ships, and this can be done only if the women of America really make Thrift their buy-word from day to day.

To spend on those things not necessary for simple living is to deprive the Government of the labor and materials that go into their making—labor and materials now urgently needed in winning the war.

Practice the good old-fashioned habit of Thrift in your everyday living; save and lend your savings to the Government by investing in

# War Savings Stamps

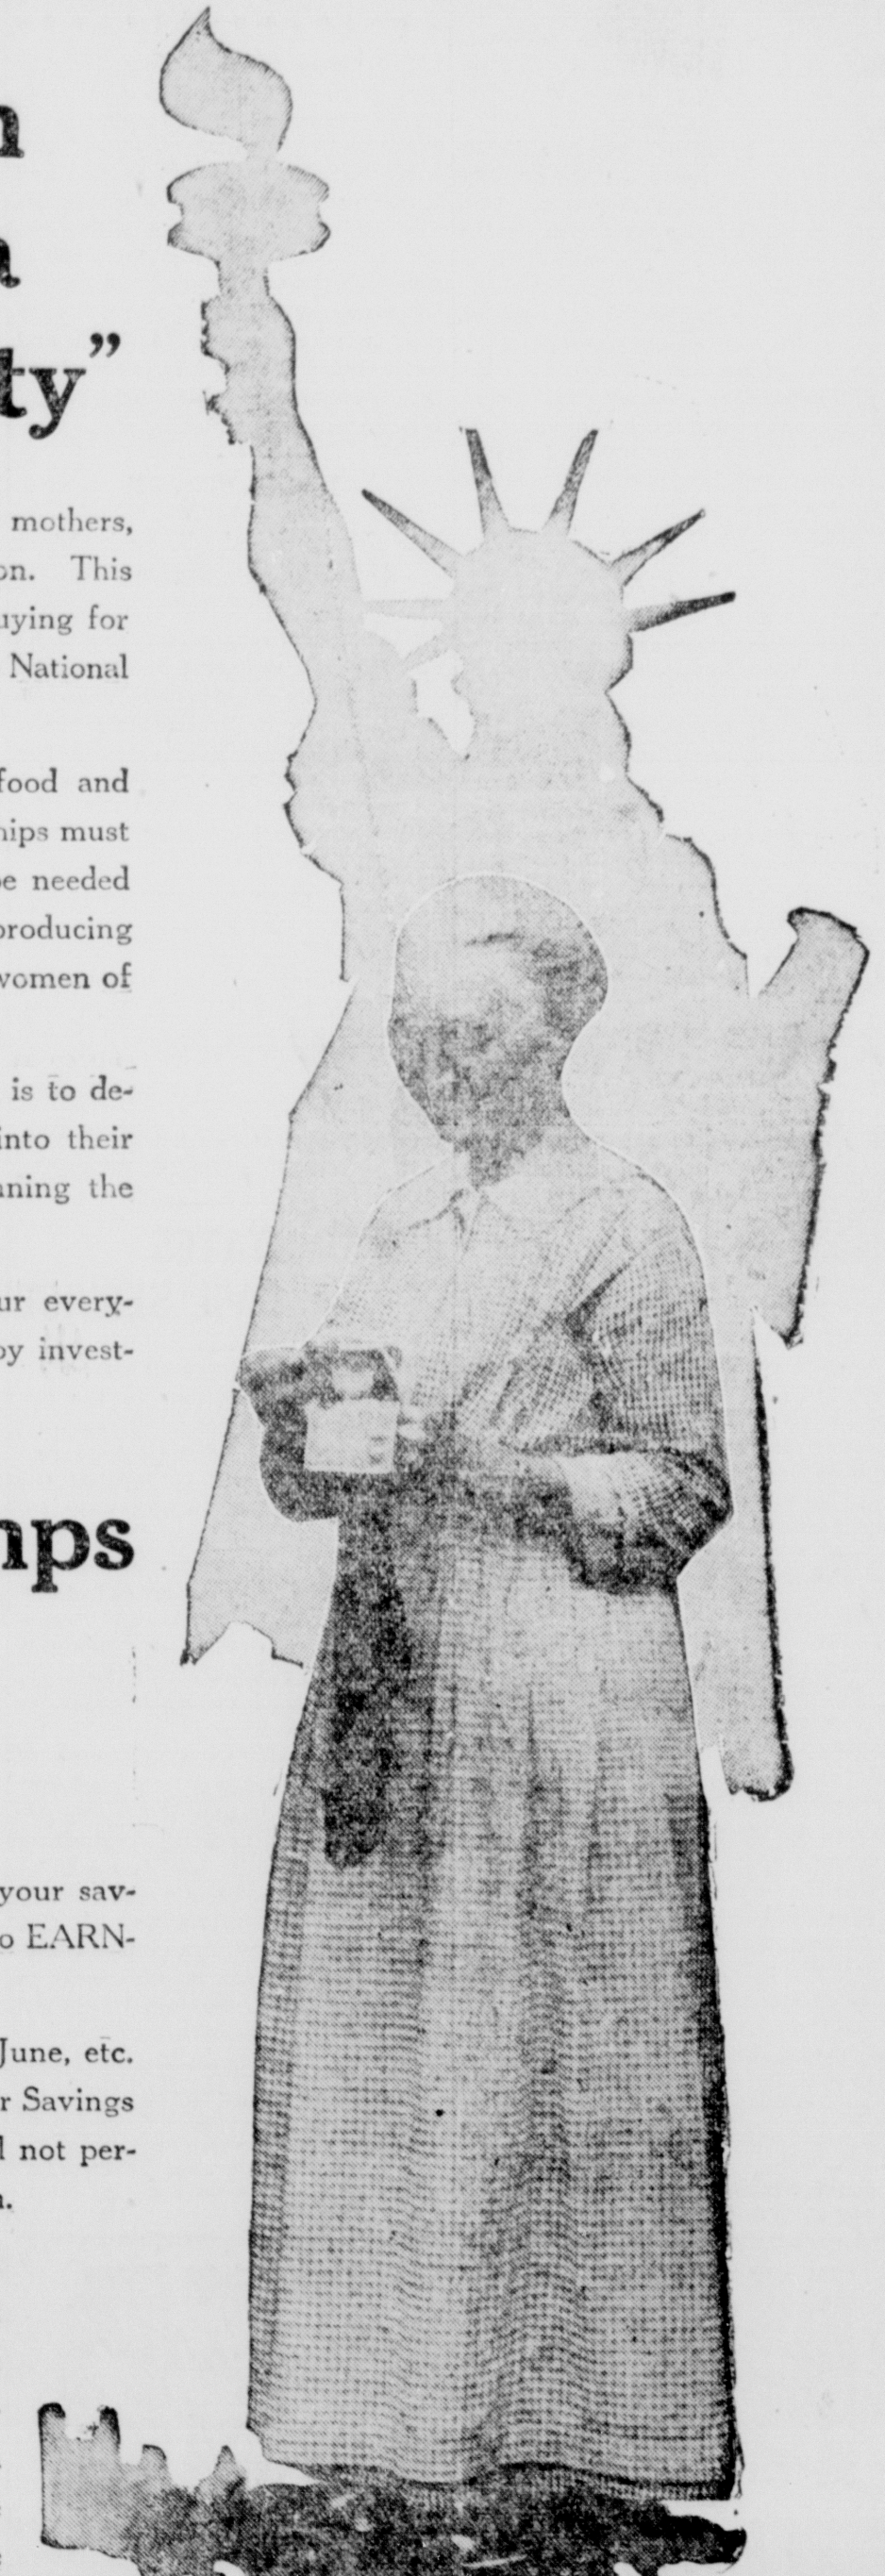

When you regularly practice Thrift, when you invest your savings in W. S. S., you are not alone SAVING but you are also EARNING.

War Savings Stamps cost \$4.16 in May, \$4.17 during June, etc. On January 1st, 1923, each stamp will be worth \$5.00. War Savings Stamps cannot decrease in value—and the Government will not permit any individual to own more than \$1,000 worth of them.

It is the duty and privilege of all Americans to save and lend their savings to the Government. If you have not already done so, decide today that you will buy your first W. S. S.—and become a registered War Saver for the Government. Every American woman is now privileged to be a "Goddess of Liberty"—for the woman who saves will be doing her share toward winning the war and freeing the world from autocracy.

## Minnesota War Savings Committee

Donated by the Brainerd Dispatch

This good American mother has four sons serving in the U. S. Army. She knows the meaning of sacrifice, she knows that her sons and other mothers' sons must be protected. Her patriotism is both practical and complete. Out of the old stocking she takes her savings and puts them into War Savings Stamps. The savings she lends to her Government will help the nation to victory, will be safely earning liberal interest and will assure her own future till the boys come home.
